
NAME: ARTEM KUZNETSOV

DESIGNATION: Drilling Engineer

NATIONALITY: Russian

AGE: 30 (D.O.B: 5th Nov 1990)

TELEPHONE: +79225038834

EMAIL: adkuznetcov@gmail.com

EDUCATION: University of Stavanger
MSc Degree in Petroleum Engineering (Well Engineering spec.)

EXPERIENCE: 8+ years

EMPLOYMENT HISTORY:

Jun 17 – Present

Baker Hughes

Drilling Engineer

Department: Drilling Services

Location: Irkutsk, Nizheartovsk

Rotational schedule 1 month on x 1 month off.

- Well placement and directional drilling planning, bottom hole assembly design.
- Developing well plans, plots, drilling programs.
- Optimization of drilling parameters and well path characteristics.
- Well path design, hydraulics, torque & drag modelling.
- Negotiation with customer's drilling and geology department's specialists
- Remotely monitoring and analyzing drilling data, correcting well paths in real time if necessary, consulting and optimization solutions.
- Survey quality control.
- Anti-collision control.

Jul 16 – Jun 17

Schlumberger

Directional Drilling Engineer (DD)

Department: Drilling and Measurements

Rotational schedule 6 weeks on x 4 weeks off

- Drilling deviated (S-type, J-type) and horizontal wells.
- Utilizing mud motors and rotary steerable systems.
- Control and optimization of drilling parameters according to the well program with relation to drilling environments.
- Responsible for daily documentation (Slide sheets, daily reports etc.) and for final documentation (Run reports, final reports).
- Survey data control.
- Anti-collision control.

Jul 15 – Jul 16

Weatherford

Directional Drilling Engineer (DD)

Department: Drilling Services

Rotational schedule 1 month on x 1 month off

- Drilling deviated (S-type, J-type) and horizontal wells
- Utilizing mud motors and motary steerable systems (TBS Drilling)
- Control and optimization of drilling parameters according to the well program with relation to drilling environments
- Responsible for daily documentation (Slide sheets, daily reports etc.) and for final documentation (Run reports, final reports)
- Survey data control
- Anti-collision control

Feb 13 – Jul 15

Weatherford

Well Planning Engineer

Department: Drilling Services

Location: West Siberia - Noyabrsk, Kogalym, Nefteyugansk

Rotational schedule 1 month on x 1 month off

- Well placement and directional drilling planning, bottom hole assembly design
- Developing well plans, plots, drilling programs
- Optimization of drilling parameters and well path characteristics
- Well path design, cost estimation, hydraulics, torque & drag modelling, pore pressure modelling.
- Negotiation with customer's drilling and geology department's specialists
- Remotely monitoring and analyzing drilling data, correcting well paths in real time if necessary, consulting and optimization solutions.
- Anti-collision control

Aug 12 – Sep 12

Schlumberger

D&M Summer Intern

• Department – Drilling & Measurements

• Sakhalin Island Location – RN-SMNG Odoptu Project

• Assisting with directional drilling operations of extended reach well (ERD) – MD 8046m
